The appliance is being pretty persistent, hanging on to the URLs in those web areas after a do not crawl and a forced recrawl. It's because this is a full feed. I will generate explicit deletes in a feed this morning and remove them.

I just removed them entirely from the index/search results. We don't have the option of keeping permanently redirected resources in the index. And confirmed that energyindependence was indexed.

I removed the best bets that point to any of these pages, since they will show up whether they are indexed or not. We do have the option of keeping these in the search results so that people actually see them and see and see the signpost.

I did not remove Best Bets for <https://www3.epa.gov/airquality/blackcarbon/> or for <https://www.epa.gov/ghgemissions/overview-greenhouse-gases>

Peter,

Is there anything extra we need to do for search?

We redirected a bunch of climate change sites to a signpost page at

<https://www.epa.gov/sites/production/files/signpost/cc.html>

and we redirected clean power plan and toolbox to <https://wcms.epa.gov/Energy-Independence>

Thanks

Le Ann,

After we finish CC, we have

2 additional redirects:

Clean Power Plan (www.epa.gov/cleanpowerplan)

Clean Power Plan Toolbox for States

<https://www.epa.gov/cleanpowerplantoolbox>

to <https://www.epa.gov/Energy-Independence>

Le Ann,

According to the written direction below from JP Freire and confirmed by Matt Leopard, Office Director of OIM, please redirect the following sites

To <https://www.epa.gov/sites/production/files/signpost/cc.html>

Climate Change: www.epa.gov/climatechange

Climate Change Science: www.epa.gov/climate-change-science

Climate Change Impacts: www.epa.gov/climate-impacts

Climate and Energy Resources for State, Local, and Tribal Governments:
www.epa.gov/statelocalclimate

Students' Guide to Global Climate Change: www.epa.gov/climatechange/kids

I am creating a new JIRA ticket and will reply with the #.

I will help with testing.

I have told them it may take up to one hour to complete these steps:

1. Put in redirects related to CC
2. Re start apache web servers one at a time
3. Test some important CC related URLs

Thanks

Steve, Harvey and Matt,

As discussed with Nancy, we would like the content at the links below removed and archived as soon as possible.

The removed climate change pages will be replaced with a custom page that will explain why the change is happening, include a link to the January 19, 2017 snapshot of the EPA website, and a link to the press release we'll be putting out.

The clean power plan pages will be redirected to the newly posted energy independence pages.

We appreciate your assistance in this time-sensitive matter.

Please let us know if you have questions.

Thank you
